

Create an aboriginal scene using 'dot art – learned last week.

Decorate a kitchen roll holder or tube of pringles to make a rain stick.

Parents: If you can cover the ends – fill the tube; a thin strip of crumpled up tin foil and 1 tablespoon of dried rice. Secure the top and bottom (so no rice escapes) enjoy the rain sounds.

# Make a rain stick

## What is a rain stick?

- It is a tool that was used in some Native cultures to bring rain during dry periods.
- It was made from cactus and has today is popular musical instrument.
